Research Interests

My research aims to develop spatial intelligence for real-world, safety-critical environments. I focus on 3D Gaussian Splatting, from feed-forward reconstruction to post-hoc per-scene optimization, and on making such representations efficient enough to deploy. I am also interested in industrial and multimodal anomaly detection via distillation-based teacher–student frameworks, and in extending this notion of deviation from learned normality beyond 2D images to 3D scene representations.

Keywords: Spatial Intelligence, Feed-Forward 3D Gaussian Splatting, Efficient 3D Representation, Anomaly Detection

Education

Kyonggi University

M.S. in Computer Science

- Advisor: Junho Ahn
- GPA: 4.5 / 4.5

Sep. 2025 – Jun. 2026

Gyeonggi, Korea

Kyonggi University

B.S. in Department of Restaurant and Culinary

B.S. in Department of Artificial Intelligence – *double major*

- CGPA: 4.3 / 4.5 – Summa Cum Laude, AI major CGPA: 4.32 / 4.5

Mar. 2019 – Aug. 2025

Seoul, Korea

Gyeonggi, Korea

Experiences

V-Lab, Yonsei University

Intern

Advisor: Prof. Eunbyung Park

- Built a hybrid merge–prune compaction plug-in with per-scene optimization for feed-forward 3DGS on tttLRM (CVPR 2026); on the DL3DV-140 benchmark, matched the fully optimized baseline at 1/3 the peak VRAM.
- Extended it to MVP (CVPR 2026), a view-dependent-opacity backbone: Local Pruning with per-scene optimization rendered 4.3×/4.8× fewer primitives than MVP at 64/128 views, improving PSNR by 0.84 dB at 64 views.
- Designed the experiment infrastructure — unattended SLURM dependency chains, pre-registered decision gates, and held-out validation — running benchmark experiments spanning up to 500 GPU jobs.

Jul. 2026 – Aug. 2026

Seoul, Korea

Military–Academia Joint AI Education Program, ROK DCC

Teaching Assistant & Project Mentor

Sep. 2024 – Jul. 2026

Gyeonggi, Korea

AI Vision Lab, Kyonggi University

Undergraduate Research Assistant

Advisor: Prof. Junho Ahn

May 2024 – Aug. 2025

Gyeonggi, Korea

K-SW Square, Purdue University

Visiting Research Intern

Advisor: Eric T. Matson & Anthony Smith

Sep. 2023 – Dec. 2023

West Lafayette, IN, USA

Patent

Device and Method for Determining Defect of OIS Actuator	Jun. 2026
Korea Patent Application	No. 10-2026-0116731
Method and Apparatus for Indoor Space Recognition	Jun. 2026
Korea Patent Application	No. 10-2026-0116730
Deep Learning-Based Queue Recognition System	Oct. 2024
Korea Patent Application	No. 10-2024-0144283

Projects

Pedestrian Safety System for Large-Scale Buildings Using 3D Congestion Mapping with Collaborative Robots and Vision AI for Disaster Response NRF	Sep. 2025 – Aug. 2026
Acoustic-Based Real-Time Drone Localization & Tracking AI System ITSA & ROK DCC	Jul. 2025 – Dec. 2025
Improvement of Detection and Classification Capabilities in SUB2 ASS'Y GAP Inspection im co., ltd.	Nov. 2024 – Feb. 2025
Real-Time Multimodal Vision-Integrated Military Fitness Assessment ITSA & ROK DCC	Sep. 2024 – Dec. 2024
Improvement of Detection and Classification Capabilities in X-RAY Ball Inspection im co., ltd.	Jul. 2024 – Aug. 2024
Enhancing Culinary Experience: Real-Time Interactive Cooking Assistance Utilizing Mixed Reality Purdue University	Sep. 2023 – Dec. 2023

Awards

Best Paper Award , 2025 Korea Data Science Winter Conference	Dec. 2025
Outstanding Paper Award , 2025 Korea Data Science Winter Conference	Dec. 2025
Outstanding Paper Award , 2025 Korea Data Science Spring Conference	Jun. 2025
Merit Award , Kyonggi University SW Imagination Company Project Competition	Nov. 2024
Gold Award , Kyonggi University Advanced Capstone Design Project Competition	Jun. 2024
Gold Award , Kyonggi University Foundational Capstone Design Project Competition	Jun. 2023
Grand Award , Kyonggi University GamsungSW IT Competency Competition	Dec. 2019

Honors

Letter of Appreciation , ROK Defense Communication Command · Award for outstanding contribution in AI development and mentoring	Apr. 2026
AI & SW Talent Scholarship , Noh Youngbaek Scholarship Foundation · Award for excellence in the AI & Software field	Nov. 2025
Faculty Council Honors Scholarship , Kyonggi University · Award for outstanding academic achievement	Jun. 2025
Highest Honors , Kyonggi University · Graduate 1st in Dept. of Restaurant & Culinary	2025
Semester High Honors , Kyonggi University · Award for Academic Excellence (1st)	2019, 2022 · 2023 (1st Sem), 2024

Technical Skills

Programming languages

Python, C, Java, R

Frameworks & Libraries

PyTorch, TensorFlow, Keras, NumPy

Tools

CUDA, Linux, SLURM, Git, gsplat

Language Skills

TOEIC – Total Score 920	Aug. 2024
TOEIC Writing – Advanced Mid (AM)	Apr. 2024
TOEIC Speaking – Intermediate High (IH)	Apr. 2024
Official English Presentation as University Representative	Jul. 2024
Kyonggi University National Center of Excellence in Software · Presented program highlights and achievements to a CHED delegation, Philippine President's office	news article
English Interpretation & Translation Volunteer	Oct. 2023
Purdue Military Research Institute (PMRI) & IITP · Interpreted AI lectures and supported communication for ROK ROTC officers
