## Research Interests

---

My research aims to develop robust perception for real-world, safety-critical environments through multimodal representation learning with computer vision and vision–language models. I am particularly interested in spatial recognition and autonomous-driving perception via multi-sensor fusion (RGB, LiDAR, Radar). I also study industrial and cross-modal anomaly detection via distillation-based teacher–student frameworks.

## Education

---

**Kyonggi University** Sep. 2025 – Present  
M.S. in Computer Science  
Suwon, Korea

· Advisor: Junho Ahn  
· GPA: 4.5 / 4.5

**Kyonggi University** Mar. 2019 – Aug. 2025  
B.S. in Department of Restaurant and Culinary Seoul, Korea  
B.S. in Department of Artificial Intelligence – *double major* Suwon, Korea

· Overall GPA: 4.3 / 4.5 – Summa Cum Laude  
· AI GPA: 4.3 / 4.5 (42 credits completed)  
· Valedictorian, Restaurant and Culinary

## Experiences

---

**K-SW Square, Purdue University** Oct 2023 – Dec 2023  
Research Intern West Lafayette, IN, USA  
*advisor: Eric T. Matson & Anthony Smith*

**AI Vision Lab, Kyonggi University** May 2024 – Aug 2025  
Undergraduate Research Assistant Suwon, Korean  
*Advisor: Prof. Junho Ahn*

**Military–Academia Joint AI Education Program, ROK DCC** 2024 – 2025  
Teaching Assistant & Project Mentor Suwon, Korean

**National Center of Excellence in Software, Kyonggi University** Sep. 2025 – Present  
Graduate Teaching Assistant Suwon, Korean

## Publications

---

### International Journal
